

AskKODIAK

FOR WHOLESALERS

Manage Marketplace
Appetite & Help Retail
Agents Discover Your
Programs

Ask Kodiak gives you real-time visibility into market appetite. Results are provided directly by insurance carriers, and with an upgrade to our Team Sharing plan, your brokerage can even supplement the results with products and programs you add yourself. Filter by state, classification, risk-size, and more to instantly see product highlights, underwriting criteria, and underwriting instructions.

Share Programs With Agencies

Put your product appetite and marketing material in front of retail agencies across the country. The Ask Kodiak Storefront plan makes it easy to share product appetite to any retailer you want.

Share Appetite Within The Brokerage

You can finally delete that spreadsheet you've been using to keep track of carrier eligibility. Kodiak Team Sharing allows your brokerage to catalog and search carrier appetite of your own. Brochures, underwriting notes, application workflow next-steps, all of it.
