

WHAT'S AT STAKE?

Just the future of your agency.

It's not a secret that New York is a tough place to do business. More and more, state policymakers are making decisions that make it harder for you to run your agency and help your customers. There are issues we need to continue to fight.

We believe you should have a say in your future.

The Independent Agents Political Action Committee (IAPAC) is how we amplify your voice. IAPAC helps us build relationships with key decision makers. Supporting IAPAC is more than a contribution—it's an investment in the future of your business.

IAPAC needs your help—impact the focus of New York with a strong Political Action Committee.

YOUR CONTRIBUTION IS CRITICAL TODAY.
